

CURRICULUM VITAE

Prof. Dr. rer. nat. Katja Wingenfeld

Department of Psychiatry, Charité – Universitätsmedizin Berlin, Campus Benjamin Franklin
Phone: 030 - 450 534, Email: katja.wingenfeld@charite.de

POSTGRADUATE TRAINING AND POSITIONS

- 2013- Professor of Clinical Psychology, Charité University Berlin
 Head: Clinical Psychology
- 2011-2013 Associate Professor, Charité University Berlin
- 2008-2011 Research Associate, Dept. of Psychosomatic Medicine and Psychotherapy,
 Hamburg, Germany
- 2003-2008 Postdoctoral Fellowship, Dept. of Psychiatry and Psychotherapy, Ev. Hosp.
 Bielefeld, Germany
- 2000-2003 Predoctoral Fellowship, University of Trier, Germany

EDUCATION

- 2011 Habilitation: Psychoneuroendocrinology of Borderline Personality Disorder
- 2003 Doctoral Thesis: University of Trier, Germany, Department of Psychobiology
- 1994-2000 Department of Psychology, University of Trier, Germany

CLINICAL EDUCATION

- 2002-2007 Psychological Psychotherapist, Cognitive Behavioral Therapy
- 2006- Dialectic Behavioral Therapy
- 1999-2004 Systemic (family) Therapy

HONORS AND AWARDS

- 2014 Curt Richter Award
- 2011 Hamburg Personality Disorder Award
- 2009 Career Development Award for Women, University Medical Center
 Hamburg-Eppendorf
- 2004 Research Award of the German Association for Psychotraumatology (award
 to the working group of Prof. Dr. Martin Driessen)

GRANTS

German Research Foundation: (Co-PI: Prof. Dr. Röpke) “Does activation of the endocannabinoid-systems prevent the formation of intrusive memories after traumatic experiences?” (WI 3396/13-1 | Ro 3935/6-1) (2020 – 2022)

German Research Foundation: (Co-PI: Prof. Dr. Otte, Prof. Dr. Röpke, Prof. Dr. O.T. Wolf) ““Fight-or-flight” versus “tend-and-befriend” Verhalten nach Stress bei Patienten mit Borderline Persönlichkeitsstörung” (WI 3396/12-1) (2019-2022)

German Research Foundation: (Co-PI: Prof. Dr. Heekeren) “The role of stress neuromodulators in decision making under risk“ (WI 3396/11-1 | HE 3347/8-1) (2019 – 2022)

German Research Foundation: (Co-PI, PI: Dr. C. Deuter) „Are early stress effects on cognitive processes mediated by the mineralocorticoid or glucocorticoid receptor?“ (DE 2592/3-1 | OT 209/14-1 | WI 3396/10-1) (2018 – 2020).

German Research Foundation: (Co-PI, PI: Prof. Dr. C. Otte) „Effects of mineralocorticoid receptor stimulation on cognitive bias and social cognition in patients with major depression: what’s the role of NMDA receptors? (OT 209/7-1) (2016 – 2019).

German Research Foundation: Heisenberg Professorship “Psychobiology of trauma-related disorders” (WI 3396/7-1) (2013-2018)

German Research Foundation: (Co-PI, PI: Dr. L.K. Kühn) „Effects of increased noradrenergic activity by yohimbine administration on learning and attention in patients with major depression disorder” (KU 3106/2-1) (2013 – 2017)

German Research Foundation: Why does cortisol enhance memory retrieval in patients with borderline personality disorder and posttraumatic stress disorder? Investigating the neuronal correlates of cortisol administration and the effects of stress exposure (WI 3396/2-2) (2013-2016)

German Research Foundation: Stress Regulation By “Comfort Food”? Altered Hypothalamic–Pituitary–Adrenal Axis (HPA-Axis) Activity Due To Early Traumatic Stress (WI 3396/6-1 & SP 579/3-1) (2012-2015)

German Research Foundation: Hypothalamus-Pituitary-Adrenal Axis and memory in patients with Borderline-Personality Disorder and other trauma-associated mental disorders (WI 3396/2-1) (2009-2012)

NARSAD Young Investigator Grant (2012): „Effects of mineralocorticoid receptor blockade and stimulation on autobiographical memory in patients with major depressive disorder”

Werner-Otto-Foundation: The influence of stress hormones on memory in patients with major depression: effects of noradrenergic stimulation and blockade, 2011-2012)

Von Bodelschwingschen Anstalten: Stress at work: Physical and mental health in nurses, 2008-2009)
